Dear CCAS Students,

These words are so important to our office – now more than ever.

At CCAS we believe strongly in creating an environment where ALL feel they BELONG. We want our students to feel safe and supported as you EXPLORE your college path, and to feel empowered to BECOME who you want to be now and in the future.

We have sadly heard of instances of slurs, profiling, and an increase in bias incidents directed toward individuals wearing masks or those of Asian descent. We want to be clear that racist behaviors or stereotyping of any kind are not tolerated at UW–Madison—no matter if we are online, passing others in public, or quarantined at home.

_Hate has no home at CCAS, UW-Madison, or in our community._
_We welcome ALL students and will not tolerate acts of hate or bias._

COVID-19 has affected all of us personally, academically and professionally, as well as physically, mentally, and socially. It’s extremely important to understand/reiterate: No one person, country, or ethnicity created this pandemic — disease does not discriminate.

We encourage students who are experiencing harassment or discrimination to file a bias incident report. The Dean of Students Office responds to every bias incident report received.

Please continue to respect and care for one another. We need everyone’s support during this challenging time and to treat each other with kindness.

We’re thinking of you all – please reach out if you need help or support. We’re here for you!
